

CANADA-PAKISTAN HIV/AIDS SURVEILLANCE PROJECT

a project of NACP-MoH funded by CIDA

To Whom It May Concern

This is to certify that M/S Youth Front Pakistan, Dera Ghazi Khan, had been sub-contracted by M/S Al-Punjab AIDS Consortium (PAC) for a period starting 15 May 2011 and ending 30 September 2011. Al- PAC was contracted by CIDA-funded Canada-Pakistan HIV/AIDS Surveillance Project, Agriteam Canada Consulting Ltd., to conduct the field data collection for the Round Four of Mapping and Integrated Behavioural and Biological HIV Surveillance of Key Populations at Risk in four cities of Punjab while Youth Front Pakistan was sub-contracted by Al-PAC for conducting field data collection in Dera Ghazi Khan, Punjab for Injecting Drug Users and Female Sex Workers.

The team of Youth Front Pakistan received training by Al-PAC for the required data collection process and conducted all field work upholding standards of data collection and completed the field work in the stipulated time period.

We found Youth Front Pakistan to be a diligent, honest and hardworking partner of Al-PAC and recommend them for similar and larger assignments.

Dr. Simon Azariah
